

⊕ Front-end Developer I 🗓 +61 434344292 I 🖾 xianzhe.site@gmail.com I 🔗 xianzhe.site I 📠 xianzhe1110 I ② Check Updates

# **Summary** Summary

Results-driven Front-End Developer with over two years of development experience and seven years in design. Specializes in JavaScript, Tailwind CSS, and Framer Motion, with proven expertise in crafting engaging user experiences and enhancing user interaction. Adept at designing and deploying aesthetically pleasing, reliable, and fluid software systems. Holds a Master's degree in IT with a focus on FrontEnd development and AI from UNSW. Possesses a five-year visa, eliminating the need for sponsorship. Fluent in English and Mandarin, enhancing communication in multicultural teams. Discover more at https://xianzhe.site.

# Work Experience

# Neo4j iGrapher (Graphical data code-zero analysis tool) Link

Feb 2024 - May 2024

HTML, CSS, Neo4j, JavaScript, React, D3, Tailwind, Framer Motion, Google Chrome DevTools, Figma Contribution:

#### Interface and Interaction Design:

Individually designed and implemented 2 complex interfaces, 5 medium inferfaces and over 20 interaction logics, using Figma to enhance design efficiency by 30%, ensuring intuitive and smooth user experiences.

# - Data Visualization Component Development :

Developed 25 fully customized React and D3.js data visualization components from scratch, enabling real-time graphical representation of complex data relationships.

# Animation and Visual Effects Design :

Individually Designed and implemented over 40 UI animations and visual effects using Framer Motion and other animation libraries, boosting user interaction satisfaction by 80% and enhancing visual appeal. Optimized animation performance by 37% using Google performance analysis tools.

# ► Frontend-Backend Integration:

Led frontend operations, successfully conducted over 10 large-scale data integration tests with backend services, ensuring 99% system stability and data accuracy

# Personal website (Portfolio) Link 7

Oct 2023 - Now

HTML, CSS, JavaScript, React, Tailwind, Framer Motion, Google Chrome DevTools, Photoshop Contribution:

# User Interface and Interactive Animation Design:

Designed and implemented visually appealing user interfaces and over 34 interactive animations using Framer Motion and other animation libraries. Used Google Performance Analytics to optimize performance and improve site performance by 62% animation. Improved user experience and satisfaction through intuitive and engaging animations.

# ► Web Development :

Developed entire websites from scratch using JavaScript, TypeScript, React, Tailwind, and more. Created 46 adaptive components for data visualization in React, adapted to both desktop, mobile, and tablet to better showcase individuals.

# Server Deployment :

Deployed the website to a server with domain mapping set up to ensure high availability and accessibility. Regularly maintained the web pages with missing elements and fixed unanticipated bugs on a regular basis.
